

(As of February 20, 2001)

Section 6-802. Environmental Services Director, Qualifications --

The director of the department of environmental services shall have a minimum of five years of engineering experience, three of which shall have been in sanitary engineering, and three years of administrative experience. The administrative experience does not have to be directly related to sanitary engineering. *(1992 General Election Charter Amendment Question No. 6; 1998 Reorganization)*
